ANNOUNCEMENT - Research IT Town Hall , July 17
2 messages

Hromas, Robert <Hromas@uthscsa.edu>   Tue,
To: faculty-ms <faculty-ms@uthscsa.edu>, staff-ms <staff-ms@uthscsa.edu>

The Vice President for Research and the Vice President & Chief Information Officer invite you to join us for a Research IT Town hall.

We invite you to attend a special town hall on research related IT issues and solutions. During last year's town hall series, the research community provided valuable feedback. Since then, we've been working on solutions. This town hall is being presented with UT Health IT and will provide a brief overview of several innovative programs to address the needs of our research faculty. Following the general session, please join us for a series of rolling breakout sessions where speakers and attendees can explore each topic in more depth.

TACC - The Texas Advanced Computing Center at The University of Texas at Austin facilitates open science research across a robust ecosystem of advanced computing resources.

Globus – a research cyberinfrastructure, developed and operated as a not-for-profit service by the University of Chicago. With Globus, you can easily, reliably, and securely move, share, & discover data no matter where it lives – from a supercomputer, lab cluster, tape archive, public cloud, or laptop.

Texas Data Repository - a research data management system for Texas Digital Library (TDL) member institutions. To add, share, and publish your data or work on a project.

Medical Imaging Data Management **using Flywheel** – a software solution designed to facilitate data management, processing, and analysis of imaging data.

Enterprise Research Management System (ERMS), a collective initiative from the OVPR, OSP, and ICPO. Based on feedback from our research community and recognizing our current systems are outdated and lack integration, the offices have partnered to bring a comprehensive suite of software solutions designed to facilitate research at the institution (Agreements, COI, IRB, and others).

REDCap is a secure web platform for building and managing online databases and surveys.

EVENT DETAILS

Date/Time: Monday, July 17, 2023, 9:00am – 3:00pm

Locations: Academic Learning and Teaching Center (ALT-C) Room 3.301.

Agenda: Townhall Agenda

Can't attend in person? You can participate in the general session via Zoom using the following link:

Subject: FW: ANNOUNCEMENT - Research IT Town Hall , July 17

Hi Janice,

I believe the clinic providers receive these notifications but am unsure about whether all of our research team does. So, I thought it may be worth sharing.

Thanks,

Minnie
